

AUS Restoran The Honest Dining Establishment

Honesty may be best policy.
But for getting away with it, nothing beats lying.

In naming our restaurant, we took into consideration both our location and its history. We are in a former courthouse where many a JOKK (Estonian for legally-everything-is-correct) scheme was hatched.

Therefore, we decided to hitch our wagon to the Zeitgeist of unabashed obfuscation. Rejoice in the logic Brexit, the beauty of American exceptionalism, the irony of right and left wing extremism and the fact that the most important crisis in humanity took over 40 years to receive far too little attention. Add to that commercial lies, such as the health benefits of smoking, the lunacy of calorie counting and the need for exercise to keep ourselves healthy, because we are too lazy to walk to work and you quickly realise, that for the most part, we lie to ourselves, and get away with it.

In the early days of the 90's, after the fall of the great lie of communism, many a get rich quick scheme was legally executed right here. The privatisation of state enterprises by former ideological communists who had spent a lifetime denouncing the vagaries of capitalism made not for subtle irony, but for gross sarcasm. In this spirit, our identity takes a stab at Justitia. Here Lady Justice isn't blind, but out to get you!

So, while we promise to serve you meals based on sound recipes made with healthy ingredients, we won't stop you from over-eating and enjoying your drink too much. Service wise, we'll just do our best, in the spirit of the building. Please note, for quicker and friendlier service, we do not accept bribes but donations can be made to our bank account nr EE262200221069052331.

Enjoy your meal.
